👤 About Me

Full Stack Developer with 6+ years of experience in Laravel, PHP, and Vue.js. Skilled in building scalable web apps, managing CI/CD pipelines, and handling GCP infrastructure. Focused on clean code, performance, and delivering end-to-end solutions.

Technical Skills

- Laravel (API development, Eloquent ORM)
- Vue.js, JavaScript, AJAX
- CI/CD pipeline setup and automation
- Git, GitHub/GitLab workflows
- Google Cloud Platform (GCP) server management
- Shell scripting for deployments
- Server provisioning and maintenance (Ubuntu)
- Cron jobs and task scheduling
- Environment & config management (.env files)

AI & Automation Tools

- Use of AI tools: Augment, ChatGPT, Cursor
- Workflow automation with n8n

💼 Experience

Software Developer
WPDeveloper　　　　　　　　　　May 2021 - Present

Collaborative team player with experience in designing and implementing high-availability microservices and web applications. Skilled in developing scalable Laravel backends using modern PHP practices and building responsive frontends with Vue.js and JavaScript.

Software Developer
Geeky Social Ltd.　　　　　　　February 2019 - May 2021

Experienced in building dynamic web applications with Laravel and creating responsive, pixel-perfect user interfaces using modern frontend technologies. Skilled in collaborating with design teams and optimizing existing applications for performance and usability.

Projects

Easy Jobs Application
easy.jobs

Utilized easy.jobs, an AI-powered, GDPR-compliant recruitment SaaS used by over 8,000 organizations, to build branded candidate pipelines and streamline hiring with features like AI screening, in-app messaging, and workflow automation

Technologies: Laravel, Vue.js, MySQL, JavaScript

SMEvai Multi Vendor Platform
smevai.com

Contributed to SMEVAI's cloud-based SME Hishab platform, enabling non-accountants to manage real-time accounting, invoicing, stock, and financial reports with a user-friendly interface and dashboard insights

Technologies: Laravel, Vue.js, MySQL, JavaScript

First Aid AMC Online Quiz System
firstaidamc.com

Completed First Aid AMC's intensive 5-month preparatory courses for AMC MCQ and Clinical/PESCI exams, featuring live Zoom sessions, extensive Q-bank access, mock exams, and CPD-accredited hours. Achieved structured learning with class recordings, role-play case simulations, and personalized feedback, contributing to a strong success rate among candidates.

Technologies: Laravel, MySQL, JavaScript

🎓 Education

BSc (Hons) in Computer Science and Engineering
United International University (UIU)

Completed a tech-focused program covering software development, algorithms, databases, and AI with practical project experience.
